

N EXTENSION

Did you know?

Nebraska's wide open spaces will be one of the best places to view this year's total solar eclipse.

In fact, more than 200 Nebraska communities & nearly 40% of the entire state lie within the path of the total solar eclipse event. Learn what exactly an eclipse is and how this will impact animals & plants through hands-on activities. These activities and curriculum are applicable beyond August 21st.

Curriculum geared towards ages: K-1, 2-3, 4-6, 7-12

Training Dates (pick one):

June 1

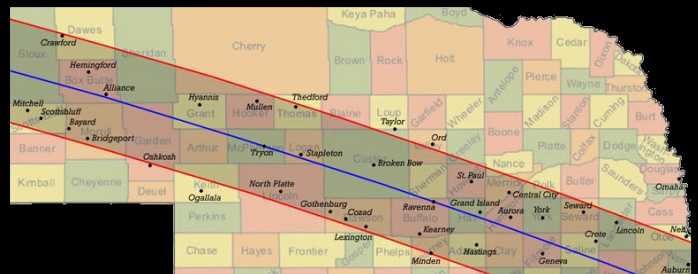

Raising Nebraska, 2:00-4:00

July 18

Raising Nebraska, 2:00-4:00

July 27

Via Zoom Meeting, 2:00-4:00

Seating is limited. Registration required via <http://go.unl.edu/solareclipse>

2017 SOLAR ECLIPSE
